Governance Challenges of the Evolving Distribution Cooperative

NRECA Course 971.1

1-1/2 WECA Skill Builder Credits

The distribution cooperative marketplace is changing faster today than at any time since our foundational period. Distribution cooperatives' relationship with their members is transforming due to changing member preferences, new business models, new technologies, and third-party applications. This course focuses on how these changes call for different ways of thinking, data collection, and analysis at the board level if boards are to fulfill their oversight responsibilities and strategic vision.

Key topics:

- Recognize the drivers of the changing industry landscape at large.
- Discuss how the evolving energy landscape impacts governance and the way a board performs its oversight function.
- Envision where they would like to see their co-op in 5–7 years.
- Identify specific data necessary to inform a recommended course of action.

In order to allow for some physical distancing, we will allow NO MORE than 54 attendees for this program. A waiting list will be kept in the event of any cancellation(s) made after the class is full. ***We may adjust this number as we get closer to the event.***

Please note that an inherent risk of exposure to COVID-19 exists in any public place where people are present. By attending this event, you voluntarily assume all risks related to exposure to COVID-19.

Thank you to our program sponsors!
